**Poor Neela can't seem to find anything she's good at!**

As the only blue firefly in the forest, she's different from the others- and it shows. She can't fly as fast or shine as bright as everyone else. What's worse, she hates looking into the lake and seeing her dull, small reflection.

But when a mighty storm hits and strands another firefly, Neela is forced to face her fears. What happens when she meets her biggest challenge? Is she truly a useless firefly, or can her blue light save the day?

Written in verse with dazzling illustrations, *Neela's Reflection* is a heartwarming tale of perseverance and determination, a story of searching for your shining light within, and finding your true reflection.
